

DLT and EO

A mission statement

To identify, develop and scale EO innovative solutions, powered by emerging transformative technologies, and accelerate their adoption within the European research and business communities

DLT Session Objectives

See lots of relevant BC and BC/EO activities: (09:00 – 14:30)

- The context: industry/public sector achievements, areas of interest, fields of research and development

Examine the relevance of DLT to the EO sector: (14:30 – 17:30)

- Agree an agenda for concerted European action to explore the uptake of the DLT (Distributed Ledger Technologies) solutions in the EO sector
- Make recommendations for ESA programmes, and inputs to other (national and European)
- Federate the community
- Develop a roadmap
